

ECOSPAN™

THE ONLY SOLUTION FOR SUSTAINABLE SOUND ABSORPTION

EcoSPAN™ fabric installed on walls and ceiling in office space..

What is **EcoSPAN™**?

EcoSPAN™, the face of the FabriTRAK Eco-Friendly System, is available in any custom color in 10' widths. Combine **EcoSPAN™** with **GeoTRAK®** PVC free frames and the recycled TerraCore Poly® infill for an acoustic solution that eliminates sound reflections and reverberation and is environmentally friendly as well.

EcoSPAN™: is the premier environmentally friendly choice for sustainable sound absorption fabric wall and ceiling treatments.

Designers Suggest:

- ✓ **Environmentally friendly projects**
- ✓ **LEED V4 projects**
- ✓ **Specialty interiors**

ECOSPAN™
