

FABRIBLOK®

THE VISUAL SOUND SOLUTION

FabriBLOK® installed in classroom to prevent sound transmission.

What is **FabriBLOK®**?

FabriBLOK® is a mass loaded limp vinyl material that is used as a noise isolation barrier with a high STC value. FabriBLOK® is an excellent choice for new construction as well as retrofitting or refurbishing existing rooms and spaces where sound transfer is an annoyance. FabriBLOK® maintains privacy where it matters: Conference rooms, board rooms, interrogation rooms, command centers, home theaters, recording studios, gymnasiums or wherever else sound absorption is important.

Why **FabriBLOK®**?

FabriBLOK® offers TOTAL SOUND CONTROL. FabriBLOK® when used in conjunction with the FabriTRAK® system offers total sound comfort, privacy and elegance in any interior space.
